■ The National Public Service Week: **Serving Canadians Better Act** was enacted by Parliament in 1992. National Public Service Week (NPSW) is a national celebration aimed at recognizing excellence in service to Canadians, while reflecting the values, ethics and priorities of the federal Public Service within the context of Public Service renewal.

■ The OFC (www.ofc-cfo.gc.ca) and the NMC (www.managers-gestionnaires.gc.ca) are federal organizations that bring together leaders and managers from many departments and agencies. They support the development of partnerships and networks for knowledge-sharing and a more effective public service. The OFC and NMC understand the value of inter-jurisdictional networks and support the work of IPAC and its goal of promoting excellence in public service.

■ Dr. Nick Bontis, will present **Leadershift: Harnessing the Power of Collaboration and Individual Productivity**. Nick is recognized internationally as a leading strategy and management guru. He is an award-winning professor at McMaster University offering high-energy presentations for both public and private sectors.

■ Etienne Laliberté, Senior Advisor, Change Management with the Department of Fisheries and Oceans in British Columbia will be delivering a presentation entitled - **Bottom-Up Change: It Starts With An Individual**. Through the use of three illustrative stories, Etienne explores the barriers present in dysfunctional workplace cultures and discusses three simple levers that inspire transformational progress. Be prepared to move past the "rant" and into an interactive and informative talk on taking ownership of situations and solutions to become a source of change. Join our dialogue and share your ideas and insights on bottom-up change!
